The diagram illustrates four types of boundaries in a landscape, each represented by a line with specific symbols and labels:

- Highway:** A solid line with 'Hwy' and 'Road' labels.
- Secondary Road:** A dashed line with 'Road' and 'Highway' labels.
- River/Physical Feature:** A wavy line with 'River' and 'Lake' labels.
- Intermittent Stream:** A dashed line with 'River' and 'Lake' labels.

Below these, there are three more boundary types:

- Railroad:** A line with cross-ticks.
- Nonvariable Boundary:** A solid line with a dashed line below it.
- Variable Boundary:** A solid line with a dashed line below it.

The diagram is divided into two sections: **Inset** (left) and **Out Area** (right).

Where the boundary symbol for only the highest-ranking of boundaries, the map shows the boundary symbol indicating that the place is consecutive with a MCD. A  $1^{\text{st}}$  indicates that the place is also a false MCD; the false MCD name is not shown.

A  $2^{\text{nd}}$  following a block number indicates that the block number is repeated elsewhere in the block.

Where international, state, and/or county boundaries coincide, the map shows the boundary symbol for only the highest-ranking of these boundaries.

- <sup>1</sup> A ' ' ' following a place name indicates that the place is coextensive with a MCD. A ' ' ' indicates that the place is also a false MCD; the false MCD name is not shown.
- <sup>2</sup> A ' ' ' following a block number indicates that the block number is repeated elsewhere in the block.

Sheet Location within Entity

The diagram illustrates the relationship between a grid of sheets and a geographical entity. On the left, a 3x3 grid of squares represents sheets. The squares are numbered as follows: the top row has three empty squares; the middle row has a square with the number '2' on the left and a square with the number '3' on the right; the bottom row has a square with the number '5' on the left and a square with the number '6' on the right. All other squares are empty. On the right, a map of a geographical entity is shown. A rectangular box is drawn over a portion of the map, indicating the location of a specific sheet. The text 'Sheet Location within Entity' is positioned above the map.
